

Kevin T. Tolentino

4th-Year BSIT Student | Aspiring Network Engineer | Cybersecurity & IT Infrastructure | Full-Stack Developer

Mabalacat City, Pampanga, Philippines | genjitolentino@gmail.com | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

4th-year BS Information Technology student at National University with hands-on experience in network engineering, cybersecurity, IT infrastructure, full-stack and mobile development, system integration, databases, testing, and technical troubleshooting. Practical experience configuring enterprise-style networks, integrating REST APIs, and developing end-to-end system workflows. Focused on Network Engineering / Administration, NOC, Cybersecurity, and IT Infrastructure roles.

TECHNICAL SKILLS

Networking & Security: Cisco Packet Tracer, physical Cisco routers/switches, TCP/IP, IPv4 addressing, subnetting/VLSM, OSPF, VLANs/802.1Q, DHCP/DHCP Snooping, ACLs, SSH, Cisco ASA, ISA-3000, Purdue Model segmentation, Port Security, Syslog/SIEM, network troubleshooting

Development: React, TypeScript, JavaScript, HTML5/CSS3, Tailwind CSS, Bootstrap, Vite, PHP, Laravel, REST APIs, Flutter, Dart, Java, Kotlin, C++

Data & Tools: MariaDB/MySQL, SQL, Firebase Authentication, Cloud Firestore, Git/GitHub, Postman, Linux, VirtualBox, Android Studio, VS Code, Eclipse, XAMPP, IIS/RDP

PROJECTS

AFFORDAHOMES | Full-Stack Developer & System Integrator | React, TypeScript, Laravel, MariaDB/MySQL

- Contributed to property management, client inquiry/site-visit workflows, appointments and Client Appointment Slips (CAS), agent/admin interfaces, responsive UI states, REST API integration, TanStack Query cache handling, and regression testing.
- Built and integrated the Client Inquiry to Site Visit to Appointment to CAS workflow across client/agent interfaces, API rules, and database state; supported frontend/backend contract troubleshooting and Git feature-branch / pull-request collaboration.

CampusFind - Campus Lost & Found App | Solo Mobile App Project | Flutter, Dart, Firebase

- Built a campus lost-and-found application with authenticated reporting, real-time Firestore data, search/filtering, possible-item matching, and a role-based claim workflow through Campus Security.
- Implemented AI-assisted match explanations, Firebase Authentication, Cloud Firestore data flows, Provider state management, and Firestore security rules.

Enterprise Networking & Security Lab | Cisco Packet Tracer | Network Engineering & Cybersecurity

- Designed and configured a multi-site enterprise network spanning headquarters, remote branches, a data center, DMZ, and Operational Technology environment using OSPF, VLANs/802.1Q, DHCP, SSH, serial WAN links, and centralized Syslog/SIEM logging.
- Configured Cisco ASA and ISA-3000 firewall segmentation, Purdue Model ACL policies, Port Security/PortFast, and validated routing, DHCP, segmentation, and firewall behavior end-to-end.

EDUCATION

National University | Bachelor of Science in Information Technology (BSIT)

4th Year / Graduating Student | Expected Graduation: April-June 2027

CERTIFICATIONS & CREDENTIALS

- TOPCIT - Test of Practical Competency in ICT (Level 4) - Institute for Information & Communications Technology Promotion (IITP) | Issued Sep 2026 | Score: 675/1000
- IT Specialist - Networking - Certipoint / Pearson VUE | Issued Oct 15, 2025 | Expires Oct 15, 2030
- Cisco Networking Academy Credentials - Jul 2026: Network Technician Career Path; Networking Devices and Initial Configuration; Network Addressing and Basic Troubleshooting; Network Support and Security; Networking Basics
- CompTIA IT Fundamentals+ (ITF+) Certification - CompTIA | Issued Jul 1, 2024
